

Tray Support - 170cm

TORNADO
STORAGE SOLUTIONS LTD

Secure and optimize your Tornado with the 170cm tray guards

The 170cm tray guards are designed to secure the storage of your goods in your smaller trays, reducing possible system errors and ensuring smooth running of operations. It will also prevent any piece of stock from falling out from its position and causing potential damage to products and to the machine.

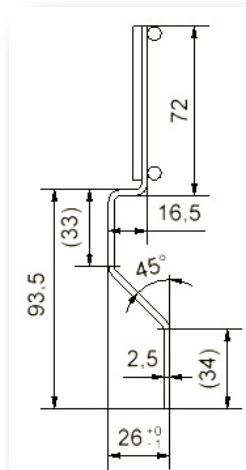

Easy to install, you can fit the tray guards yourself on a machine in less than an hour.

Specifications of the tray guards:
